

Take & Make Instructions

Snowman with Red Earmuffs

Supplies included:

- Cardboard craft tube
- White construction paper
- Blue construction paper
- Small piece of orange paper
- Red pipe cleaner
- 2 small red pompoms

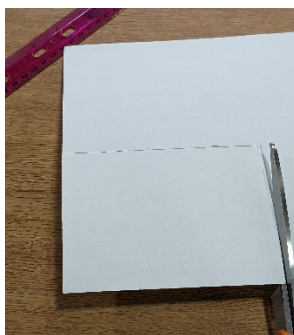

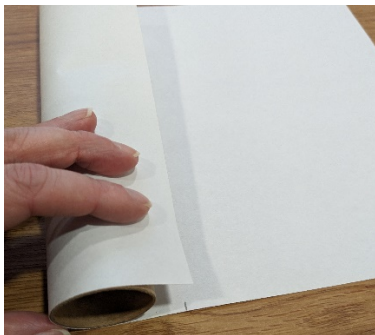

Supplies you will need:

- Scissors
- Glue
- Black pen or marker
- Ruler or straight edge

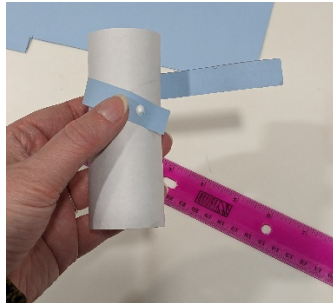

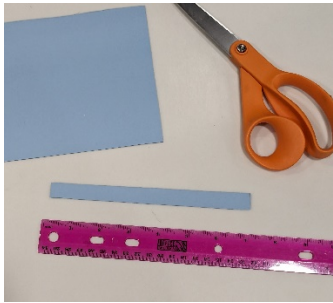

Step 1:

Take your white construction paper and wrap it around the cardboard craft tube. Mark with your black pen or marker where you need to cut the paper to fit around the tube. Using your scissors, carefully cut the paper to fit around the cardboard tube. Use your glue to glue the white paper to the cardboard craft tube.

Step 2:

Cut a strip of blue construction paper about $\frac{1}{2}$ inch wide and 7 inches long. Wrap it around your white cardboard tube, about $\frac{1}{3}$ of the way down from the top. Overlap the blue paper a little to make a scarf on your snowman and glue it down in place. With your black pen or marker, draw two eyes and a smile on the part of your snowman that is above the blue scarf, and four black buttons on the body of your snowman, below the scarf. Cut a small triangle-shaped carrot nose for your snowman using the small square of orange paper and glue it in the center of his face.

Step 3:

Cut your red pipe cleaner to about 3 inches in length. Glue each end of the pipe cleaner to either side of the snowman's head. Glue a red pom-pom on top of each end of the pipe cleaner. **Yay!**
You are finished! Enjoy your little snowman with red earmuffs. 😊
