19:22:30 From Natalie : 3) 1)

19:22:32 From Wayne Hickey : 1 River, 2 Technology, 3 Agricultural - butI like the idea of blending styles to different areas.

19:24:12 From Martin Glastra van Loon : plazas, but they need to be human scaled, comfortable, with seating opportunities.

19:24:20 From Ben Yacob : Dedicated cycling and separate walking as well as separate road ways.

19:24:28 From Norene : Movement areas & landscapes are important to me as I am a walker. I like to meet up with friends for walks, so nice gathering spaces are important as well.

19:25:15 From Wayne Hickey : I like open space to encourage people to use Town Center for more than shopping trips.

19:25:16 From William Gabison : art...keep the kids involved like the underpass of I 5..

19:25:52 From Martin Glastra van Loon : plus one on this one: I like open space to encourage people to use Town Center for more than shopping trips.

19:26:08 From Ron Heberlein : All elements are important to me to make a cohesive place that will attract multiple types of activity.

19:26:39 From William Gabison : also like willy the horse in front of the old chamber of commerce

19:27:07 From Martin Glastra van Loon : Beauty. Celebrate the center of town as a destination worth walking, biking to.

19:27:07 From Wayne Hickey : I have to go, but thank you all for a great meeting. See you all on the next one.

19:28:23 From AJ Rat : Movement areas are most important to my enjoyment of a streetscape. That is to say, having too much street furniture can get in the way of mobility. Making something look nice should be subservient to being a welcoming space to gather.

19:30:08 From Norene : I moved here from downtown Lake Oswego. They have done a great job of revitalizing their downtown without a great deal of extra space. The area around the fountain in Millennium Plaza is a great focal spot.

19:30:31 From Natalie : I do like to think that we will have many covered walkways that are wide enough to chat in

the rainy weather around town enter.

19:30:39 From Natalie : center

19:32:55 From Norene : Thank you! Looking forward to what you come up with.

19:34:34 From Martin Glastra van Loon : thanks again. good night.

19:34:37 From AJ Rat : Thanks for listening to us!
